BANGALORE, THURSDAY, FEBRUARY 10, 1898.

GENERAL
 NOTIFICATION.

No. 9383—*Mis. F. 21-36, dated 10th February 1898.*

REGULATIONS UNDER THE EPIDEMIC DISEASES REGULATION, 1897, FOR MUNICIPALITIES
 OTHER THAN THOSE OF THE CITIES OF BANGALORE AND MYSORE,
 AND FOR TOWNS AND VILLAGES.

Whereas certain parts of India are visited by, and the territories of Mysore are threatened with, an outbreak of a dangerous epidemic disease known as bubonic plague, and whereas the ordinary provisions of the law in force in the said territories are insufficient for the purpose of preventing the outbreak or spread of the disease, the Government of Mysore, in exercise of the powers vested in them under Section 2 of the Epidemic Diseases Regulation, 1897, are pleased to prescribe, under the said Epidemic Diseases Regulation, the following revised temporary regulations to be observed in municipalities other than those of the Bangalore and Mysore Cities, and in other towns and villages in the said territories, in supersession of those issued with Notification No. 342, dated 9th March 1897. The provisions of such of the following regulations as relate to the procedure at railway stations (whether inspection or non-inspection) shall apply only to that portion of the railway line which is within the jurisdiction of the Government of Mysore, namely, the line between Bangalore and Nanjangud, excluding the Bangalore City station.

1. In every municipality and every town or village, every householder and every medical practitioner practising therein who becomes cognizant of any case of the bubonic plague or of fever with glandular swellings in his house or in any other private dwelling within the limits of the municipality, town or village, shall be bound to give information of the same with the least practicable delay, in a municipality to the President or Vice-President of the Municipal Board and the medical officer in charge of the Government dispensary or hospital, and in a town or village not being a municipality, to the medical officer in charge of the Government dispensary or hospital, if any, and to the officer in charge of the nearest police station, who shall report the fact at once to the nearest Magistrate. Every householder and every keeper or person in charge of an hotel, chattram or other place of public resort shall also in the same manner forthwith report the arrival at the house, hotel, chattram or other place, of any person from any area which has been notified by the Government of Mysore or the Deputy Commissioner to be infected. The Vice-President or Magistrate, as the case may be, shall forthwith send information to the Deputy Commissioner of the district of the occurrence of any such case.

2. On the requisition of the Deputy Commissioner, and to the extent to which he may determine, a Municipal Board or a Local Fund Board, if it has not already made the provision, shall provide and maintain in such localities, which in the case of a municipality may be within or without the municipal limits as in the opinion of the District Medical Officer, or a medical officer deputed by him, may be proper for the purpose, suitable and sufficient accommodation to the satisfaction of such medical officer, for the isolation and treatment of persons suffering or suspected to be suffering from the plague or to have so lately suffered from the plague as to be in an infectious state or likely from recent contact with plague cases to have been infected or to be in an infectious state, and also accommodation for their detention until they shall be certified by the medical officer in charge to be free from infection. In the places so provided the Municipal Board or the Local Fund Board, as the case may be, shall furnish such hospital establishments, equipment and supplies as the District Deputy Commissioner may determine, and shall also make arrangements for feeding persons detained under the powers conferred by any of the regulations made under the Epidemic Diseases Regulation, 1897, on payment by them of the cost; but in the case of indigent persons, the Municipal Board or the Local Fund Board, as the case may be, shall supply them with food free of charge: provided that any person so detained may cater for himself subject to such rules and conditions as the medical officer in charge may prescribe. The Municipal Board or Local Fund Board, as the case may be, shall, on like requisition and in like manner and subject to like approval, provide accommodation for persons who may be required to vacate any building or ground under the regulations set out below numbered 4, 5 and 6, and who may be unable to procure necessary accommodation for themselves.

Explanation.—Any certificate given under this regulation should contain an accurate description of the person named in it to prevent, so far as possible, its being used by another person.

3. When in any building or place within a municipality, town or village there is a person suffering or suspected to be suffering from the bubonic plague or to have so lately suffered from the plague as to be in an infectious state, or likely from recent contact with plague cases to have been infected or to be in an infectious state, or believed to have recently arrived from an infected area, the Deputy Commissioner, or any officer appointed by him, generally or specially in this behalf, may enter and inspect such person and building or place, and either—

(a) remove such person to one of the places of accommodation provided under the preceding regulation 2, and in such place or in some other place so provided to which at the discretion of the medical officer in charge he may from time to time be removed, detain and treat him until he shall be certified by the said medical officer to be free from infection; or

(b) take measures for segregating and detaining such person in his own house or in some other suitable place, if in the opinion of the medical officer in charge the person can be there treated with no greater risk of spreading the infection than if he were removed to a place provided under the preceding regulation 2:

Provided that no person segregated or detained under this regulation shall leave the place of segregation or detention except with the written permission of the officer in charge, who may take such steps as may be necessary to enforce this prohibition.

4. Any building or place which is required for and is, in the opinion of the District Medical Officer or the medical officer deputed by him in this behalf, suitable for the purpose of the accommodation to be provided under regulation 2, may be entered upon and occupied by the President of the Municipal Board or of the Local Fund Board, as the case may be, or a person deputed by him in this behalf (if untenanted, without any notice whatsoever, and if tenanted, after twenty-four hours' notice in writing conspicuously posted on such house or building), and may be used for the purposes of the accommodation under regulation 2, and the owner or the lessee of such building or place shall not be entitled to anything beyond a reasonable rent for the period during which the ground or building may remain in the occupation of the President of the Municipal Board or Local Fund Board, as the case may be: provided that the President of the Municipal Board or of the Local Fund Board, as the case may be, shall be bound, at the cost of the Municipality or the Local Fund Board, as the case may be, thoroughly to cleanse

and disinfect the ground or building, and, if a building, to whitewash it internally and externally before vacating it.

5. When any building or place is, in the opinion of the Deputy Commissioner or an officer generally or specially authorized by him in writing in this behalf, so overcrowded as to make the inmates or occupiers specially liable to an attack of the bubonic plague, the Deputy Commissioner or officer authorized as aforesaid may, by a notice posted on some conspicuous part of the building or place, require the owner or occupier, if actually residing in the building or place, or the tenants or the actual occupants thereof, to abate, as prescribed in the notice, the overcrowding within twenty-four hours by reducing the number of lodgers, tenants or other occupants of the said building or place, and, in default of compliance with the requisition in the said notice, may summarily eject all the inmates or occupants, or reduce the number of the same in such manner and to such extent as may appear necessary; and the owner or occupier or the tenants or the inmates of such building or place shall not be entitled to claim any compensation on account of such ejection.

6. When a building or place has, in the opinion of a medical officer appointed in this behalf, been so infected with the plague as to render its further occupation a source of danger to the inmates thereof, the Deputy Commissioner, or an officer generally or specially authorized by him in writing in this behalf, may summarily cause such building or place to be vacated and thoroughly cleansed and disinfected, and the said officer may cause the inmates of such building or place to be detained and segregated in such place as he may appoint for a period not exceeding ten days from the date of the occurrence of the last case of plague among such persons, and the building or place shall not be re-occupied until in the opinion of such medical officer it is safe to be re-occupied.

In like manner if it appears to the said officer that, in view of the prevalence of the plague within his jurisdiction, any building within such jurisdiction, intended or used as a dwelling, is in so insanitary a condition as to be unfit for human habitation, he may summarily cause the same to be vacated, and prohibit by a written order the further use of such building as a dwelling. After such prohibition no owner or occupier of such building shall use or suffer the same to be used for human habitation until the said officer gives written permission in this behalf.

The owner or the occupier or the tenants or actual inmates or occupants of any building or place dealt with under this regulation shall not be entitled to claim any compensation on account of anything done thereunder.

7. The President of the Municipal Board or of the Local Fund Board, as the case may be, shall provide suitable conveyances for the free carriage, to a place provided under regulation 2, of persons suffering or suspected to be suffering, from the plague, and for the transport of any clothing, bedding or other articles which have been exposed to infection.

8. If it shall appear to the Deputy Commissioner or an officer deputed by him in this behalf that the water in any well, tank or other place is likely, if used for drinking, to engender or to cause the spread of the plague, he may by public notice prohibit the removal or use of the said water.

9. If the Deputy Commissioner of the district or an officer generally or specially authorized by him in writing in this behalf is of opinion that the destruction of any hut or shed is necessary to prevent the spread of the plague, the Deputy Commissioner or such officer as aforesaid may summarily take measures for the destruction of such hut or shed and the materials of which it is constructed; and the President of the Municipal Board or of the Local Fund Board, as the case may be, may in his discretion grant compensation, but no person shall be entitled to claim it of right, for any loss or damage caused by reason of such destruction, out of the Municipal Fund or the Local Fund as the case may be.

10. No owner, driver or person in charge of a public conveyance shall carry any person suffering from the plague; nor shall any person suffering from the disease enter a public conveyance.

11. No person shall let, or show for the purpose of letting, a building or part of a building in which he knows, or has reason to know, that a person has been suffering from the plague, without having such building or part thereof, and every article therein likely to retain infection, disinfected to the satisfaction of the medical officer appointed by the Deputy Commissioner in this behalf.

12. The Deputy Commissioner or an officer generally or specially authorized by him in writing in this behalf may, when he considers necessary, enter upon any premises, whether situated in a municipality or not, at any time during daylight and summarily execute any work required for, or summarily abate any of the nuisances existing with respect to, the following matters:—

- (a) the cleansing, lime-washing, disinfecting, clearing, draining or otherwise putting in a proper state, of buildings or lands in a filthy or unwholesome state or overgrown with noxious vegetation;
- (b) the collection, deposit and removal of night-soil or other offensive matter and the provision and cleansing of latrines and other receptacles for the same;
- (c) the cleansing, fencing, repairing or filling up of private tanks and wells; and
- (d) the draining off or removal of stagnant water or offensive liquid matter.

13. The Deputy Commissioner of the district may, in his discretion, order the disinfection or destruction of any collection of rags in rag-pickers' houses and rag stores or of second-hand gunny bags imported from any part of India infected by the plague, and no person shall be entitled to claim compensation for any loss or damage sustained by him by reason of the disinfection or destruction of such articles under the powers conferred by this regulation.

The Deputy Commissioner of the district may also by an order in writing authorize generally or specially any Magistrate or any President or Vice-President of a Municipal Board to exercise the power of disinfection vested in the Deputy Commissioner of the district by this regulation.

14. At or near any railway station appointed by Notification in the *Mysore Gazette* as an inspection station, any medical officer appointed in this behalf may detain any train and may require any person travelling therein to alight and submit himself to medical examination as the medical officer may direct, and may, for this purpose, with the assistance, if necessary, of the police, using such reasonable force as may be required, detain such passenger either on the railway premises or in some other suitable place which the Deputy Commissioner shall, if necessary, provide at the expense of the Municipal or Local Fund, as the case may be; and, if the said person is suffering from, or suspected to be suffering from, the bubonic plague or to have so lately suffered from the plague as to be in an infectious state or likely from recent contact with plague cases to have been infected or to be in an infectious state, the medical officer may deal with him under the preceding regulation 3.

Any such medical officer or person acting under his immediate orders may also demand of any person so travelling, his name, his usual abode and particulars of the places in which he has resided or which he has visited during the preceding fifteen days, and also the address to which he is about to proceed, and any other particulars which the medical officer may think fit, in view of satisfying himself as to the likelihood of the said person's spreading the infection of the plague. A person so interrogated shall be bound to answer truly to the best of his knowledge and belief all such questions and enquiries. If any such person is found to have, within the preceding ten days, been within a part of India believed by such medical officer to be infected by the plague, and is unable to satisfy such officer that he is proceeding to any fixed place of residence, such officer may remove him, or cause him to be removed, to a place provided under regulation 2, and may there cause him to be detained for ten days, when, if he is certified free from the infection of the plague, he shall be permitted to depart therefrom.

15. If the place at which an inspection is held under regulation 3 be a railway station, and if no suitable accommodation for plague cases has been provided in the neighbourhood of such station, the officer making the inspection may require that a passenger who is found to be suffering from or suspected to be suffering from the plague, or to have so lately suffered therefrom as to be in an infectious state, or likely from recent contact with plague cases to have been infected or to be in an infectious state, be carried on by the railway administration in a railway compartment vacated for the purpose to the nearest inspection station or other place where such accommodation is available.

16. The inspecting medical officer at an inspection station notified under regulation 14 may require any passenger who may have been medically inspected to deliver up his ticket in order that some mark indicative of his having been inspected may be impressed thereon; and such passenger shall be bound to deliver it up accordingly.

17. On the alighting at a railway station, which has not been appointed an inspection station under regulation 14, of a passenger who holds a ticket from or is believed to have come from a station which is within the limits of the Bombay Presidency or of an infected area, the police officer on duty at the station, with the aid if necessary of the railway officials, shall stop such passenger and require him to furnish his name and address with particulars of the place whither he is bound, his business at such place, and the length of time he means to stay there; and the passenger shall be bound to furnish such information and answer all such inquiries truthfully to the best of his knowledge and belief.

The police officer shall thereupon communicate forthwith such information to the officer in charge of the nearest police station, who shall immediately communicate the same to the nearest Magistrate, the District Medical Officer and the officer in charge of the police station within whose jurisdiction the place of the destination of the passenger is situated. The last-mentioned officer shall inform the Municipal President or Vice-President or the head-man of the village, as the case may be, of the said place in view of the passengers being kept under observation.

At a station appointed as an inspection station under regulation 14, the information aforesaid shall be obtained and communicated, in the manner directed in the preceding clauses of this regulation, by or under the orders of the medical officer in charge.

18. If a passenger from any railway station referred to in the last preceding regulation appears to be attempting to evade inspection at an inspection station by alighting at a station short of that for which his ticket has been taken, the police officer on duty shall insist on his continuing his journey as far as the inspection station either by the same or the next following train and may, with the assistance of the railway officials, take all such steps as may be necessary to compel him to do so.

19. Any such passenger alighting at a railway station short of an inspection station, who from his being unable to show any business at the place of alighting appears to have so alighted for the purpose of evading examination at such inspection station, may be detained by the police officer on duty at the railway station at which he has alighted and be forwarded by the same or the next train to the inspection station. The railway fare of the person so detained and forwarded to the inspection station shall be paid by the passenger, and, if not paid, shall be recovered from him by the railway authorities as excess fare.

20. When any carriage from the Bombay Presidency or from any infected area is detached from a train at any railway station on the Bangalore-Nanjangud line, except the Bangalore City station, it shall be disinfected or ventilated in the following manner as soon as possible and before it is again brought into use:—

Third and intermediate class carriages—

The interior wood-work of the carriages, especially the floors and seats, shall be thoroughly washed with a solution of perchloride of mercury (1 in 1,000) or with a carbolic acid solution (a wine-glassfull to a gallon); the doors and windows shall be opened, and the vehicle exposed to the air.

First and second class carriages—

The floors and wood-work shall be treated as above, the cushions being also brushed and thoroughly cleaned.

20a. Any railway carriage from which a passenger who is suffering or suspected to be suffering from the plague has been removed shall be detached at the nearest convenient station and shall be disinfected in the manner prescribed in the foregoing regulation.

21. The clothing, bedding and personal effects of all persons detained or segregated under regulation 3, or removed under regulation 14, to a place provided under regulation 2, shall be thoroughly disinfected and may, at the discretion of the medical officer in charge of the place of detention or segregation, be destroyed.

The Deputy Commissioner of the district may in his discretion, at the cost of Local or Municipal Funds, award compensation for articles destroyed, but no person shall be entitled as of right to recover any compensation by way of damages or otherwise for the destruction or disinfection of any article dealt with as above.

Where the clothes or bedding of a traveller shall have been destroyed as hereinbefore provided, the medical officer may, if the person is poor, arrange for providing other necessary articles in their place, the cost of the same being imputed to the Deputy Commissioner of the district, who shall debit it to Local or Municipal Funds at his discretion.

21A. The Deputy Commissioner or any officer appointed by him either generally or specially in this behalf, or the medical officer in charge of a railway inspection station, may take any measures that he may deem necessary for the disinfection of the clothing of any person found within the limits of his jurisdiction, who, in the opinion of the said officer, is likely to have been infected, or of any articles likely in the opinion of the said officer to carry infection, which are in the possession of such person; and such person shall be bound to submit to such measures and he may, if necessary, be detained until such measures are taken.

22. The Deputy Commissioner of a district may, in case of emergency or to save delay, provide for the execution of any work or the doing of any act which a Local Fund Board or Municipal Board is empowered or required to execute or to do in accordance with these regulations, and the immediate execution or the doing of which is in the said Deputy Commissioner's opinion necessary for the service or the safety of the public, and may charge the expense of executing the work or doing the act to the Local Fund Board or Municipal Board concerned.

23. The Deputy Commissioner is empowered to direct the evacuation of houses in the neighbourhood of an infected house or of a block of houses or a particular locality, and to prohibit re-occupation of such houses or locality without permission. The Deputy Commissioner shall give notice for such period as he may deem necessary, and shall provide temporary accommodation for those removed from the houses evacuated. The Deputy Commissioner may require the evicted persons to reside in any place which he may appoint under such restrictions as he may deem necessary for a period not exceeding ten days, after which, provided no further sickness has occurred, any one who wishes to depart may, after necessary precautions, be allowed to depart.

24. The Deputy Commissioner of the district or any officer specially authorized by him in this behalf is empowered to close places used for the supply, preparation or storage of articles of food and drink in infected localities or in the immediate neighbourhood of infected houses, and to direct the removal of all articles of food and drink found in such places.

25. (1) The Deputy Commissioner of the district, when and to the extent he may deem necessary, may make regulations—

(a) for prescribing the route which shall be taken by a funeral procession from the place of death to the grave-yard, burning ground or other place for final disposal of the corpse, and the places, if any, at which such procession may halt on its way for funeral prayers, ceremonies or other purposes;

(b) for enforcing burial in certain places or at a certain depth and for requiring that quicklime be placed with the corpse.

(2) He may also prohibit the burial or burning of corpses of persons reasonably supposed to have died of the plague in or upon ground other than ground specially assigned by him for such purpose.

(3) When a person dies of the plague elsewhere than within the limits of a hospital, no one shall touch the corpse except those who undertake the necessary duties of preparing it for the funeral. Such persons shall disinfect themselves according to the orders which may be issued by the Deputy Commissioner in this behalf.

26. A ferry boat shall be subject to all the regulations applicable to buildings; and passengers by a ferry boat shall be subject to interrogation, inspection and detention in the same manner as passengers by railway.

In order to prevent the spread of the infection of the plague either by or to a ferry boat the Deputy Commissioner of the district or any officer generally or specially empowered by him in this behalf may require such boat to alter its moorings or to stop during its passage and moor in such position as such officer may indicate, or direct that it desist from plying until such time as may be stated in a notice placed on a conspicuous position of the boat.

27. The Deputy Commissioner of the district may prescribe that no dhobies within an infected area to which he may extend this regulation shall wash clothes except at such places and at such times and under such conditions as may be prescribed.

28. No person employed to do duty in any capacity at a place set apart for the accommodation, examination, isolation, detention or treatment of persons suffering or suspected to be suffering from the plague or to be infectious, shall withdraw from the duties of his office without permission, or without having given one month's previous notice in writing to the officer under whom he is serving, or shall neglect or refuse to perform his duties or any of them.

29. Officers specially appointed by the Deputy Commissioner of the district for this purpose are authorized to prevent the passage of suspicious persons from or into, as the case may be, any town, village or local area to which this rule may be applied by the Government, unless such persons have been detained in a place of observation for a period prescribed by the Government, and, if arrangements for disinfection of their clothing, baggage, &c., have been made under the Deputy Commissioner's orders, unless such disinfection has been effected. Such officers shall have the widest discretionary power, subject to the general or special orders of the Deputy Commissioner of the district, to decide what person shall be considered "suspicious" for the purposes of this rule. So long as he remains in a place of observation under this rule no person shall be allowed to communicate, except with the permission of the said officers, with persons outside the limits of the place. He shall obey such orders as may be issued by the plague authority for the cleanliness or protection from infection of the persons, property or quarters of the persons detained.

30. When in the exercise of the powers conferred by or under these rules a pass or certificate is granted to any person or persons to enable him or them to go from one place to another, or for any purpose, such pass or certificate shall not be used by any other person or persons or for any other purpose.

31. Any person disobeying or contravening or refusing to submit himself to any regulation made under the Epidemic Diseases Regulation, 1897, or obstructing any measure which has been taken by Government, or which any authority or officer appointed under competent authority to carry out such regulation, has been required or empowered to take under any such regulation, shall be deemed to have committed an offence punishable under Section 188 of the Indian Penal Code, and shall be liable on conviction to imprisonment of either description for a term which may extend to six months or fine which may extend to one thousand rupees or both.
